

Review Topics for Midterm

- I. This is a list of the topics for the midterm exam. Make sure you review the concepts in DQ #1, DQ #2, DQ #3, DQ #4, DQ #5, and DQ #6
- II. Study all the chapters in our class schedule:
 - a. Appendix B, Chapter 1.2, Chapter 3 to 7, and Chapter 9.1 (**Skip Appendix A, and Chapters 4.5, 6.3, 6.4, and 7.2**)
- III. At the end of each of the chapters there is a section called “Self-Review Questions”. It is a good idea, after finishing each chapter, that you answer those questions to test your knowledge. All the questions are answered in the same section, so first give your own answers and then double check to see if yours were accurate.
